Kesavadasupalem, East Godavari District, Andhra Pradesh

## Professional Summary

B.Com graduate in Computer Applications seeking an entry-level Software Developer or Software Engineer position. Familiar with Java, Python (basic), Spring Boot, REST APIs, JPA/Hibernate, MySQL, and Oracle SQL. Hands-on academic project experience in backend application development, CRUD operations, database integration, and customer data visualization. Web designing internship experience using HTML5, CSS3, and JavaScript. Motivated to apply technical knowledge, develop problem-solving skills, and contribute to software development projects.

## Technical Skills

**Programming Languages:** Java, Python (Basic)
**Backend Development:** Spring Boot, REST APIs, JPA/Hibernate
**Database Management:** MySQL, Oracle SQL
**Web Technologies:** HTML5, CSS3, JavaScript
**Development and Testing Tools:** Git, Postman, Tkinter
**CRM and DevOps:** Salesforce, Copado

## Internship Experience

**Web Designing Intern** Mar 2024 – May 2024
**Glossary Soft Tech Pvt Ltd**

- Built responsive websites using HTML5, CSS3, and JavaScript.
- Used wireframes and interactive elements to improve website usability.
- Worked on website performance and cross-browser compatibility.

## Education

**B.Com (Computer Application)** 2024
MVN JS & RVR Adikavi Nannayya College, Malikipuram
University Aggregate: 75%

**Intermediate** 2021
Sri Deepthi Mahila Junior College
Board of Intermediate: 58%

**Secondary School Certificate (SSC)** 2019
SYZM ZPP High School, Kesavadasupalem
Board of Secondary Education: 87%

## Projects

**Employee Management System – Spring Boot REST API**

*Technologies: Java, Spring Boot, JPA/Hibernate, Oracle SQL, Postman*

- Developed a backend employee management application using Java and Spring Boot to manage employee records.
- Implemented RESTful APIs supporting CRUD operations: Create, Read, Update, and Delete.
- Used a layered architecture to organize application components and support maintainability.
- Integrated an Oracle SQL database and used JPA/Hibernate for object-relational mapping.
- Tested and validated API endpoints using Postman.

**Customer Data Visualization**

*Technologies: Python, MySQL, Tkinter*

- Designed and developed a desktop application interface using Python Tkinter.
- Connected the application to a MySQL database to store and retrieve customer data.
- Processed customer data and displayed graphical charts to identify trends and patterns.
- Presented customer information through visual reports to support data-driven understanding.

## Core Strengths

Problem Solving, Adaptability, Fast Learning, Punctuality

## Languages

Telugu, English

## Interests

Browsing the internet and learning new skills.
